Michael Bricault is a firefighter for the City of Albuquerque Fire Department serving since 1993. He is a nationally certified fire service instructor and a frequent speaker on a variety of fire service topics relating to search and rescue during residential fires. He is a contributing author to a variety of fire service publications including Fire Engineering Magazine, Firehouse Magazine, Fire International Magazine, FireChief Magazine and is an FDIC presenter. Bricault has also written a firefighter's training manual on the subject of Residential Search and Rescue as well as department s.o.p.'s.

Class Description: This class is intended and designed for all firefighters that respond to residential fire situations in any setting that may involve a rescue component of trapped civilians. The class seeks to arm firefighters with practical, useable tools and techniques for conducting searches and performing rescues as well as a thorough understanding of assessing the potential for making rescues in a real world setting.

Must bring bunker gear & scba for hands on class
