Downers Grove & Frankfort, Illinois: "Back-to-Basics Weekend"

Focused, intense, high quality training expected of major fire service conventions, brought to YOU!

Friday November 13th, 2009: 9am – 5pm (Red)

Basic Forcible Entry Operations

(\$200 per member, lunch included) ****ONLY 40 spots available: BOOK NOW!****

Hosted by:

Downers Grove Fire Department

5420 Main Street (Station #2)

Downers Grove, IL 60515

**Are you sick of WATCHING other people SHOW you how to perform forcible entry?
With Brotherhood Instructors, you ACTIVELY participate in ALL topics below:**

- **ALL** members will perform **MULTIPLE** evolutions of conventional forcible entry on both inward AND outward swinging doors, and force a simulated door from the hinge side.
- **ALL** members will perform up to 12 cuts of varying heights on a window bar prop and padlocks.
- **ALL** members will defeat a simulated American Series 2000 (Hockey-puck) lock with a power saw,
- **ALL** members will perform a through-the-lock evolution (using only a screwdriver) on the low-end "high-security" padlocks.
- **ALL** members will utilize a duck-bill lock breaker and/or the irons to defeat padlocks.
- **ALL** members will pull lock cylinders and manipulate several variations of rim and mortise locks utilizing through-the-lock methods. Hundreds of locks will be on display including the latest innovations in residential, commercial and improvised locking systems.
- Comprehensive discussions on all forcible entry topics.

Saturday November 14th, 2009: 9am – 5pm (Gold)

Basic Engine & Ladder Company Operations

(\$250 per member, lunch included) ****ONLY 35 spots available: BOOK NOW!****

Hosted by:

Frankfort Fire Protection District

24420 S. La Grange Road (Station #3/Training Center)

Frankfort, IL 60423

Ladder Company Operations:

****NEW** Conventional Forcible Entry & Safe Interior Search Operations:** ALL members will force a moderate to heavily secured door with the irons, and immediately conduct an interior search under zero-visibility conditions.

- **Note:** This is a "scenario-based" rotation. If you desire an in-depth, techniques and tips lesson on conventional forcible entry, please take our "Basic Forcible Entry Operations" course. Previous attendance at one of our "Basic Forcible Entry Operations" course is suggested due to the difficulty of the door.

Vent, Enter & Search (VES) Operations: ALL members will safely conduct a VES operation under zero-visibility conditions while using SCBA. Don't wait until 3am with a mother screaming and pointing, "My daughter is in that room!" to "try" this operation for your first time!

Flat-Roof Operations: ALL members will operate a power saw to conduct at least a 3'x5' ventilation opening on a flat-roof prop.

Engine Company Operations:

Stretching the Initial Attack Line: ALL members will participate & discuss various options for preconnected and static hose beds. Members will perform long stretches from a static hose bed, in an effort to "think outside of the preconnect." Estimating the stretch will also be stressed.

Advancing the Initial Attack Line: ALL members will advance a 1 3/4" attack line (while flowing water) through a multiple room fire scenario. Tips and techniques for operating and managing the attack line will be stressed as the line is pushed in.

Aggressive 2 1/2" Attack Line Operations: ALL members will advance a 2 1/2" attack line (while flowing water) through a multiple room fire scenario. Many firefighters approach this evolution saying, "Not possible!" We show you the tips & techniques that make it possible. **You and ONE other member** will advance the line through this scenario. Teamwork between the "Nozzle" and "Back-up" (2nd FF) is stressed heavily.

Our instructors are comprised of a wide-variety of department sizes and types from across the U.S. and Canada. See <http://brotherhoodinstructors.com> for individual instructor biographies, to download this flier or for further information.
